

# Jason Wong

My Story: [jasonwonton.github.io](https://jasonwonton.github.io)

*I hope to be the bridge between business and data.*

[jw2377@cornell.edu](mailto:jw2377@cornell.edu) | (408) 824-0923 | 1446 Saratoga Dr, Milpitas, CA, 95035 | [linkedin.com/in/jasonwonton](https://www.linkedin.com/in/jasonwonton)

## EDUCATION

**CUMULATIVE GPA: 3.96**

### Cornell University | Ithaca, New York

Expected Graduation May 2021

B.S. Applied Economics and Management

B.S. Biometry and Statistics

Minor in Computer Science

GPA: 3.82

### Mission College | Santa Clara, California

2017 - 2018

Computer Science

GPA: 4.00

## WORK EXPERIENCE

### Notita | Founder

February 2019 - Present

- Aggregate and source live financial/market data to provide dashboard services and a data pipeline for traders.
- Develop and backtest algorithmic trading strategies primarily based on academic research findings.

### Cornell University | Undergraduate Research Assistant | David Ng

October 2018 - Present

- In the process of training a machine learning (Naive Bayes) model to classify and parse through business reports. This model will give us a probability estimate on whether the language in the reports indicate an effect on earnings through climate change.

### Cornell University | Undergraduate Research Assistant | Aija Leiponen

September 2018 - Present

- Scraped, analyzed, and helped build visualization models based on information from various databases pertaining to patent holding companies and patent assertion entities, which was used to conduct a study on whether patent hoarding is detrimental to economic innovation.
- Expedited and automated a semester long data collection process (120,000 data points) to 2 weeks.

### Milpitas City Hall | Intern

Jan 2017 – May 2018

- Collected and analyzed qualitative survey data, which was then used to forecast and brainstorm different solutions and problems. Developed and helped pass a permit system for limited parking in a residential area.
- Analyzed Milpitas city budget expenditures and reported principal data to the mayor.
- Organized with Rich Tran (Mayor of Milpitas) on town halls and community outreach projects.

## ACTIVITIES AND PERSONAL PROJECTS

### Madden Coin Shop

- Monopolized game collectibles by monitoring market data and identified trends in supply and demand, uncovering opportunities in a rapidly changing virtual game environment.
- Utilized Bootstrap and jQuery frameworks to create a website selling virtual collectables, leading to approximately \$4000 in profit.
- Sourced potential customers through social media and negotiated charges with customers.
- Implemented a semi-automatic goods delivery system with PayPal and Google Sheets.

### Triangular Arbitrage Cryptocurrency Bot

- Exploited inefficiencies in low-volume cryptocurrency exchanges through the triangular arbitrage strategy.
- Used python and numpy to test trading theory and concluded that there was already overcrowdedness in the market, so the strategy was inefficient.

### NBA Statistical Analysis

- Implemented Scrapy and Selenium frameworks to scrape recent sports data from NBA's website and used analytics (matplotlib, pandas, numpy) to understand and visualize the advanced statistics.
- Constructed a hustle index per game statistic by aggregating various statistics indicating effort.

### Chess for Kids | Program Creator/Director

- Coordinated with library officials and volunteers to create a walk in chess program for K-8 children.
- Focused classes on strategy, logic, piece value, board control, and good sportsmanship.

## TECHNICAL SKILLS AND INTERESTS

**Programming:** Python (Advanced) · Javascript (Familiar) · VBA (Familiar) · Java (Familiar)

**Web/Media:** HTML · CSS · Flask · jQuery · Bootstrap

**Analytics:** SQL · Matplotlib · Numpy · Pandas · Seaborn · Plotly · Excel · Scikit-Learn · A/B Testing · Google Analytics

**Awards:** Dyson Diversity Scholar (1st Generation) · Dean's List

**Hobbies:** Philosophy · Catan · 49ers (NFL) · Warriors (NBA) · Writing · Chess · Baduk · Cooking · Kaggle · Poker
